MOHAMMED VI
INVESTMENT FUND

The Mohammed VI Investment Fund adheres to the Principles for Responsible Investment

Dubai - On the sidelines of COP28, the Mohammed VI Investment Fund officially signed the Declaration of Principles for Responsible Investment ("PRI"). This voluntary initiative demonstrates the Fund's commitment to promoting responsible and sustainable investment practices, as the first signatory of the "Asset Owner" category in Morocco.

The PRI, launched by the UN Secretary-General and a group of 20 institutional investors in 2006 with the coordination of the United Nations Environment Programme Finance Initiative (UNEP FI) and the United Nations Global Compact, are a set of principles designed to guide investors in integrating environmental considerations in their analysis processes, investment decisions, shareholder practices and reporting.

The Mohammed VI Investment Fund's membership of the PRI is in line with its ESG strategy, which targets sustainable growth through a rigorous ESG risk management policy and support the companies in which the fund invests in their energy transition, sustainable management of natural resources, social inclusion, especially of women and youth, and the principles of good governance.

On this occasion, Mr. Mohamed Benchaaboun, Chief Executive Officer of FM6I, declared: "By signing the Principles for Responsible Investment, FM6I highlights its commitment to sustainability and responsibility. We strongly believe that the integration of ESG issues into all of the Fund's activities is not only essential to generate long-term returns, but also to make a positive contribution to society and the environment. »

David Atkin, CEO of the Principles for Responsible Investment, also comments: "We are pleased to welcome Mohammed VI Investment Fund as a new signatory to the PRI. Responsible investment is a vital component of asset management and particularly for sovereign wealth funds. By embedding such practices in their activity, investors are better able to manage their long-term liabilities, serve the needs of their beneficiaries and contribute to a sustainable future for us all. We look forward to working with Mohammed VI Investment Fund to these ends."

About the Mohammed VI Investment Fund

Created following His Majesty's High Instructions as one of the pillars of the Kingdom of Morocco's economic recovery plan, the Mohammed VI Investment Fund was instigated by Act no. 76-20 of 31 December 2020 in the form of a State-owned limited company.

The Fund's primary aim is to catalyze investment based on equity and by mobilizing national and international investors in both the public and private sectors. Among other things, its activities include contributing to funding structural investment projects, strengthening businesses' equity and implementing structured funding mechanisms aimed at providing financing solutions, as well as supporting production activities. The aim is to mobilize an additional MAD 30 billion to supplement the initial share capital of MAD 15 billion, to generate between MAD 120 and 150 billion of investments.
